

Environmental Policy

JEDROC CONSULTING SERVICES LTD. is committed to responsible stewardship of the environment throughout our operations.

While doing our work, we protect the quality of air, water and land resources by meeting or exceeding all associated Federal and Provincial regulations and environmental requirements to which we have subscribed.

We are committed to pollution prevention and waste minimization and promote the use of recycled materials where applicable.

We promote environmental awareness throughout our operations and are committed to continually improve our environmental performance through internal and external evaluations.

We are open and responsive to the environmental concerns of our customers and the communities in which we live and work.

Robert VOLKMAN, President
